PERSONAL PROJECTS

T-Shirt Design Webpage

- As a web developer, I independently designed and developed a single-page website using HTML, CSS, and Bootstrap. The project showcases my proficiency in front-end development, as I implemented responsive layouts and utilized Bootstrap's CSS framework to create a visually appealing and user-friendly interface. By successfully incorporating Bootstrap's pre-built components and grid system, I demonstrated my ability to create a professional and modern website design.

Symphony Music Webpage

- As an aspiring web developer, I have successfully designed and implemented a single-page website using HTML and CSS flex. The project showcases my proficiency in front-end development, particularly in utilizing flexbox for responsive layouts. The website exemplifies my ability to create visually appealing and user-friendly interfaces while adhering to best practices in web design.

Adventure Thrill Webpage

- Designed and developed a visually captivating single-page website using HTML and CSS Grid, showcasing my expertise in front-end web development. Designed and developed a visually captivating single-page website using HTML and CSS Grid, showcasing my expertise in front-end web development. Utilized CSS Grid layout to create a responsive and flexible grid system, ensuring seamless content placement across various devices.
